Spiritual/Creative/Financial Flow

Nature is an inexhaustible storehouse of riches.
The supply will never run out. Original substance is alive with creative energy
and is constantly producing more forms.

The formless stuff is intelligent; it is material which thinks.
It is alive and is always impelled toward more life.

The universe is a great living presence, always moving inherently
toward more life and fuller functioning. Wallace Wattles

Refresher Stages of Alchemy

Step 1: Calcination

A burning off of pretenses and unworkable belief systems that hinder our progress.

Alchemy of Money

Calcination: incinerating the ego's control

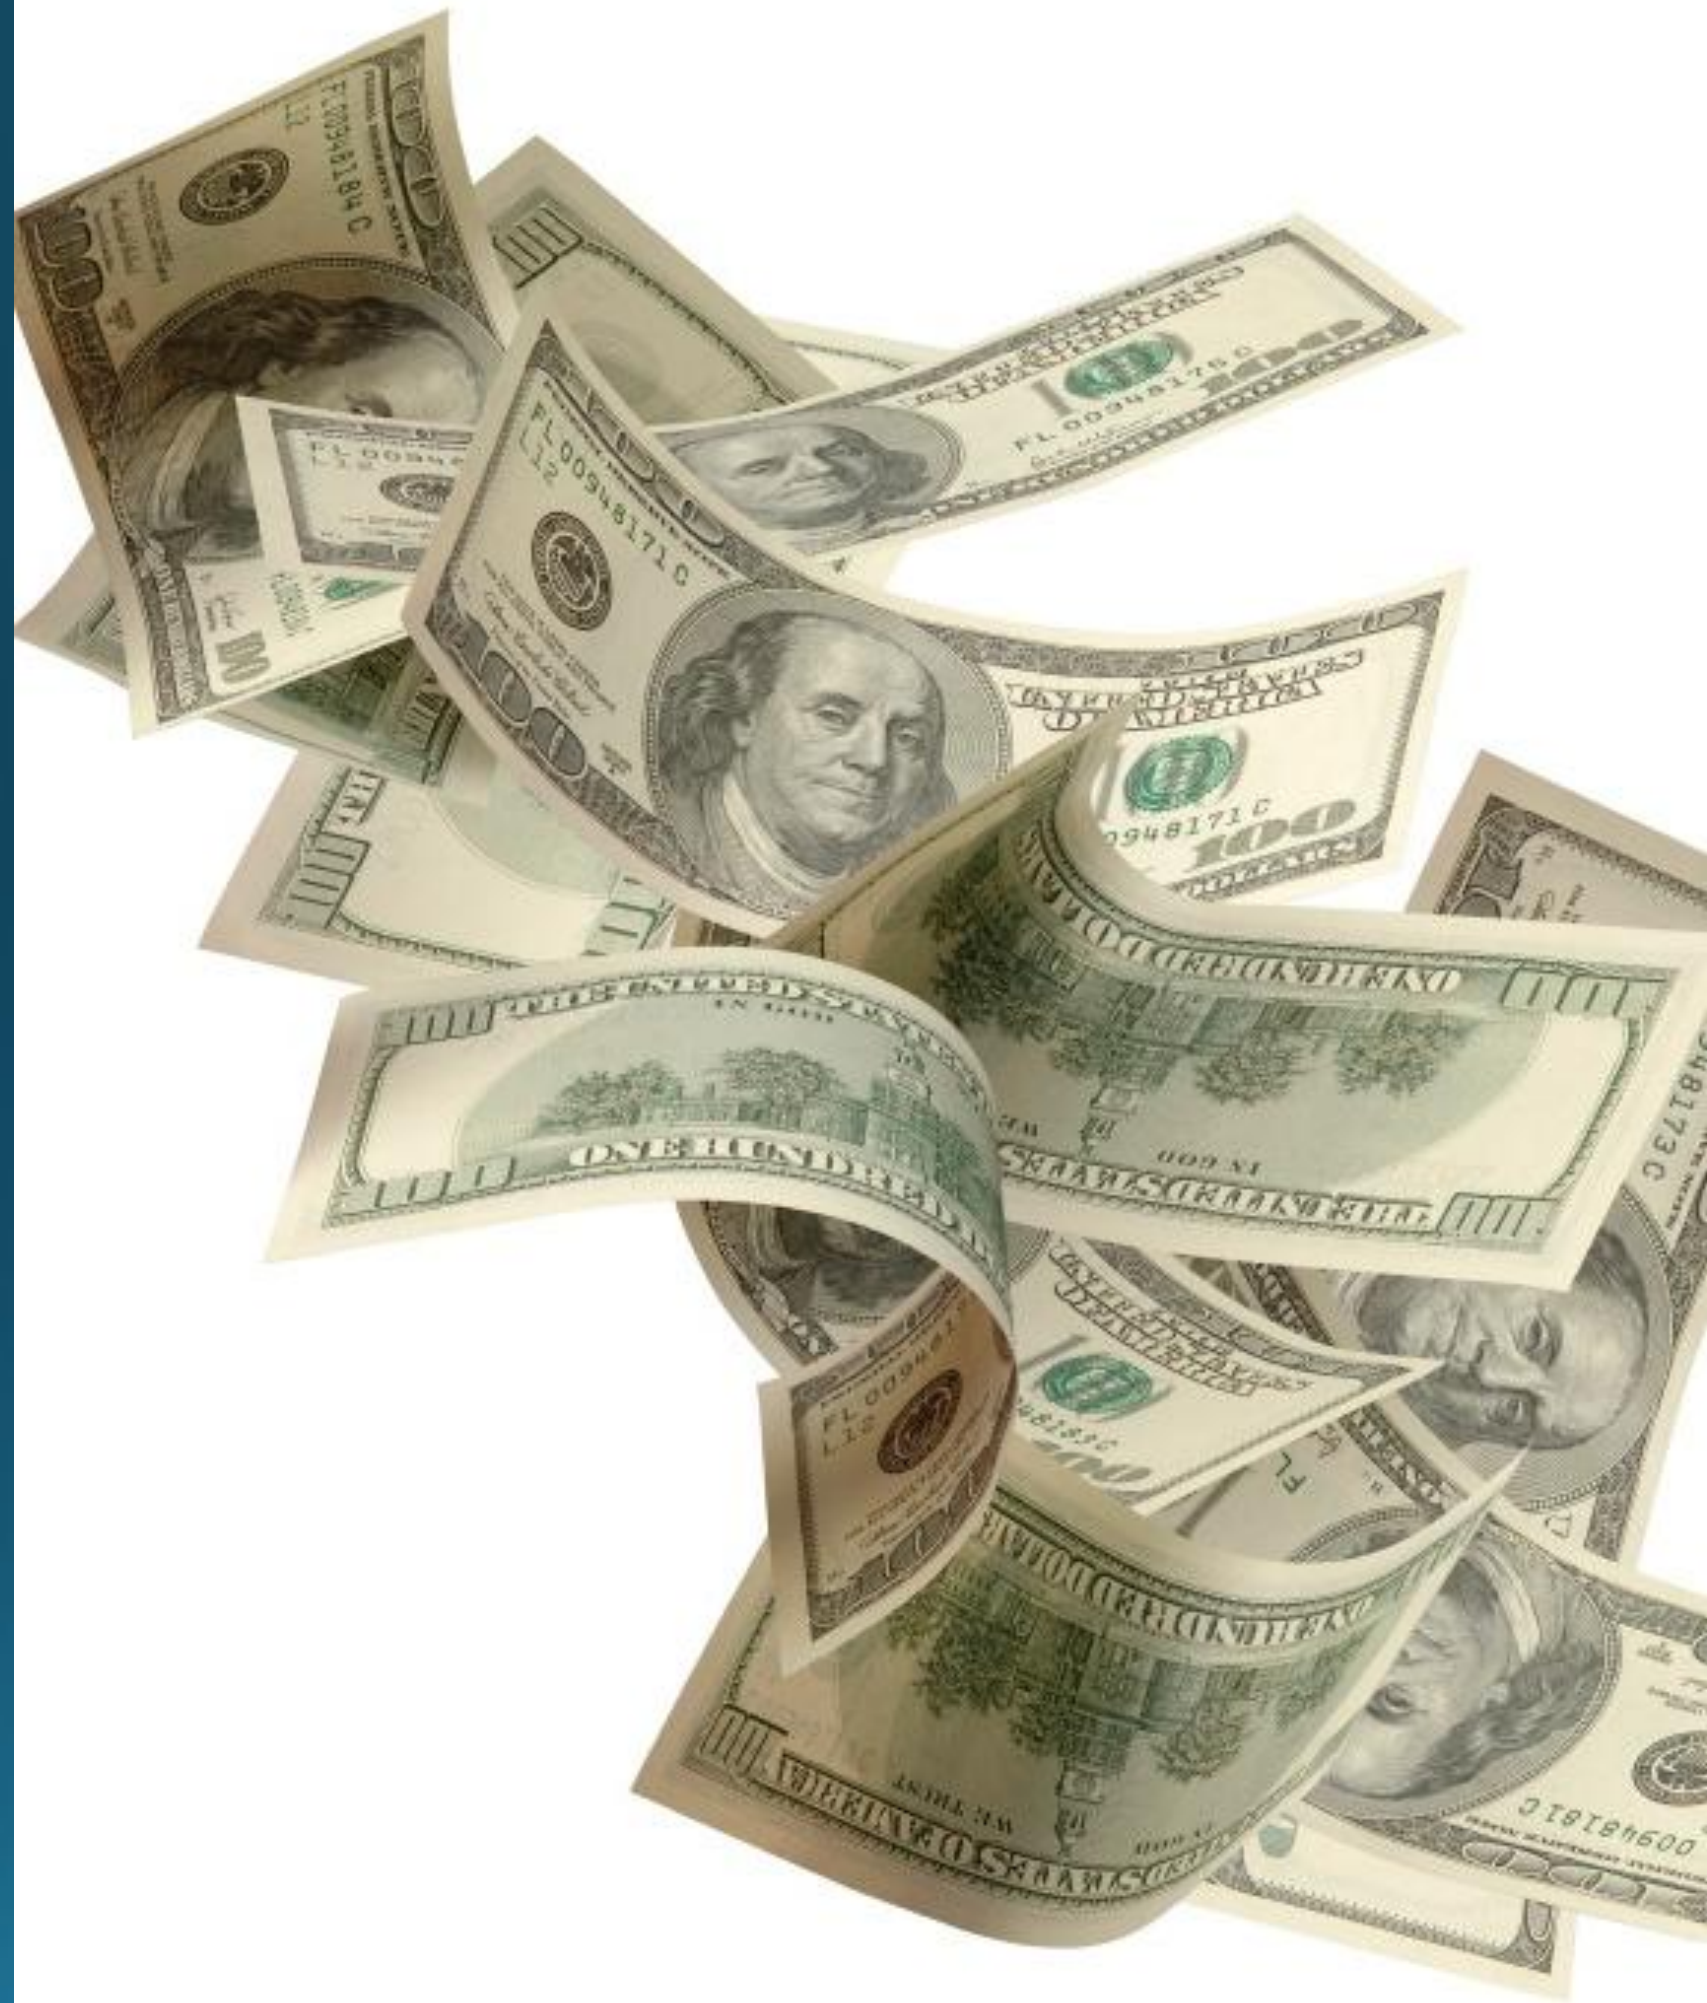

Step 2: Dissolution

Works on the heart and id to release buried emotions that conceal or distort our true nature.

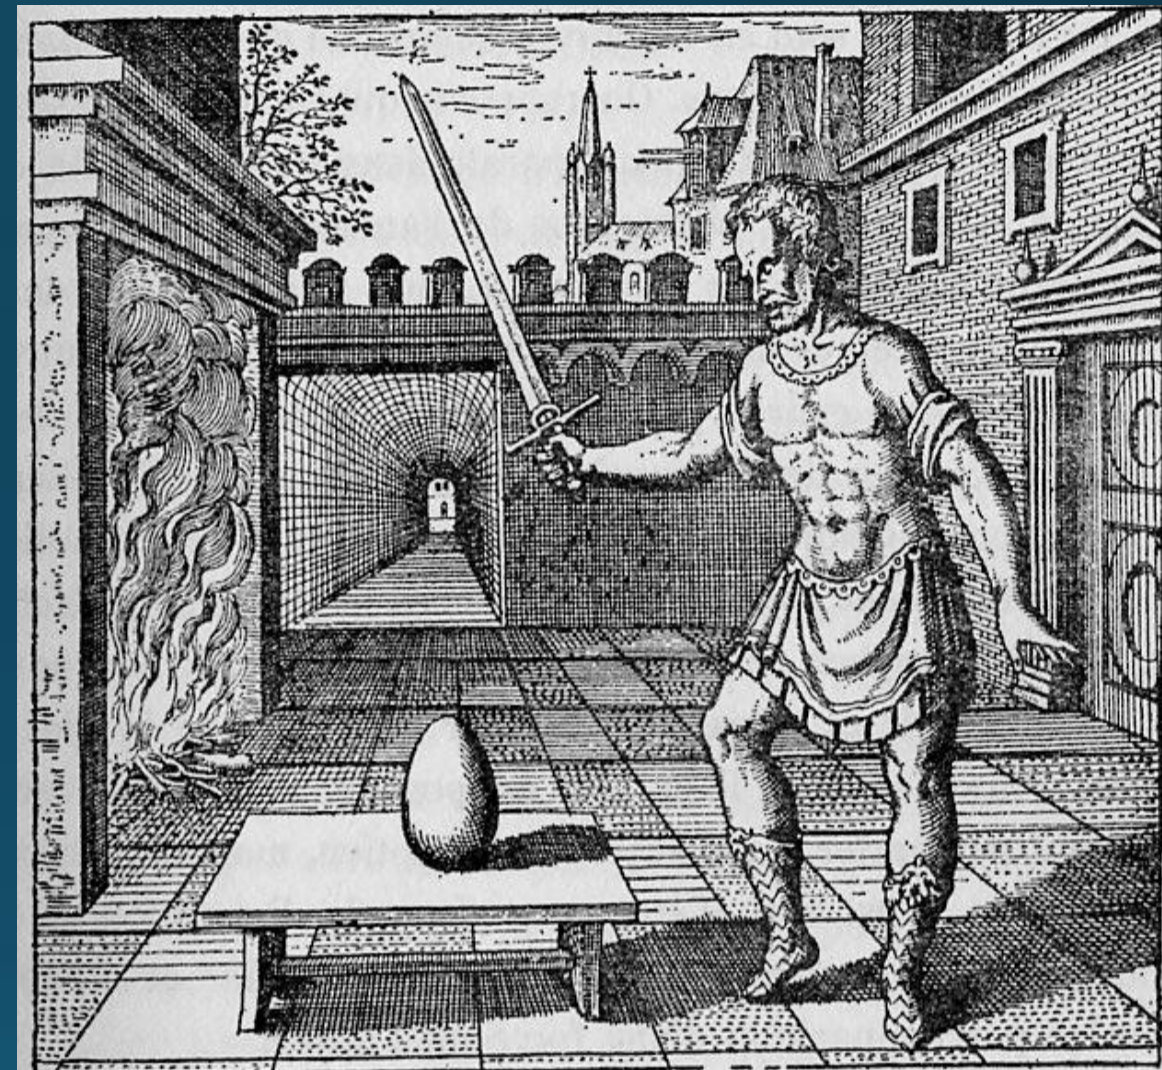

Alchemy of Money

- *Calcination*: incinerating the ego's control
- *Dissolution*: redeeming emotion and intuition

Step 3: Separation

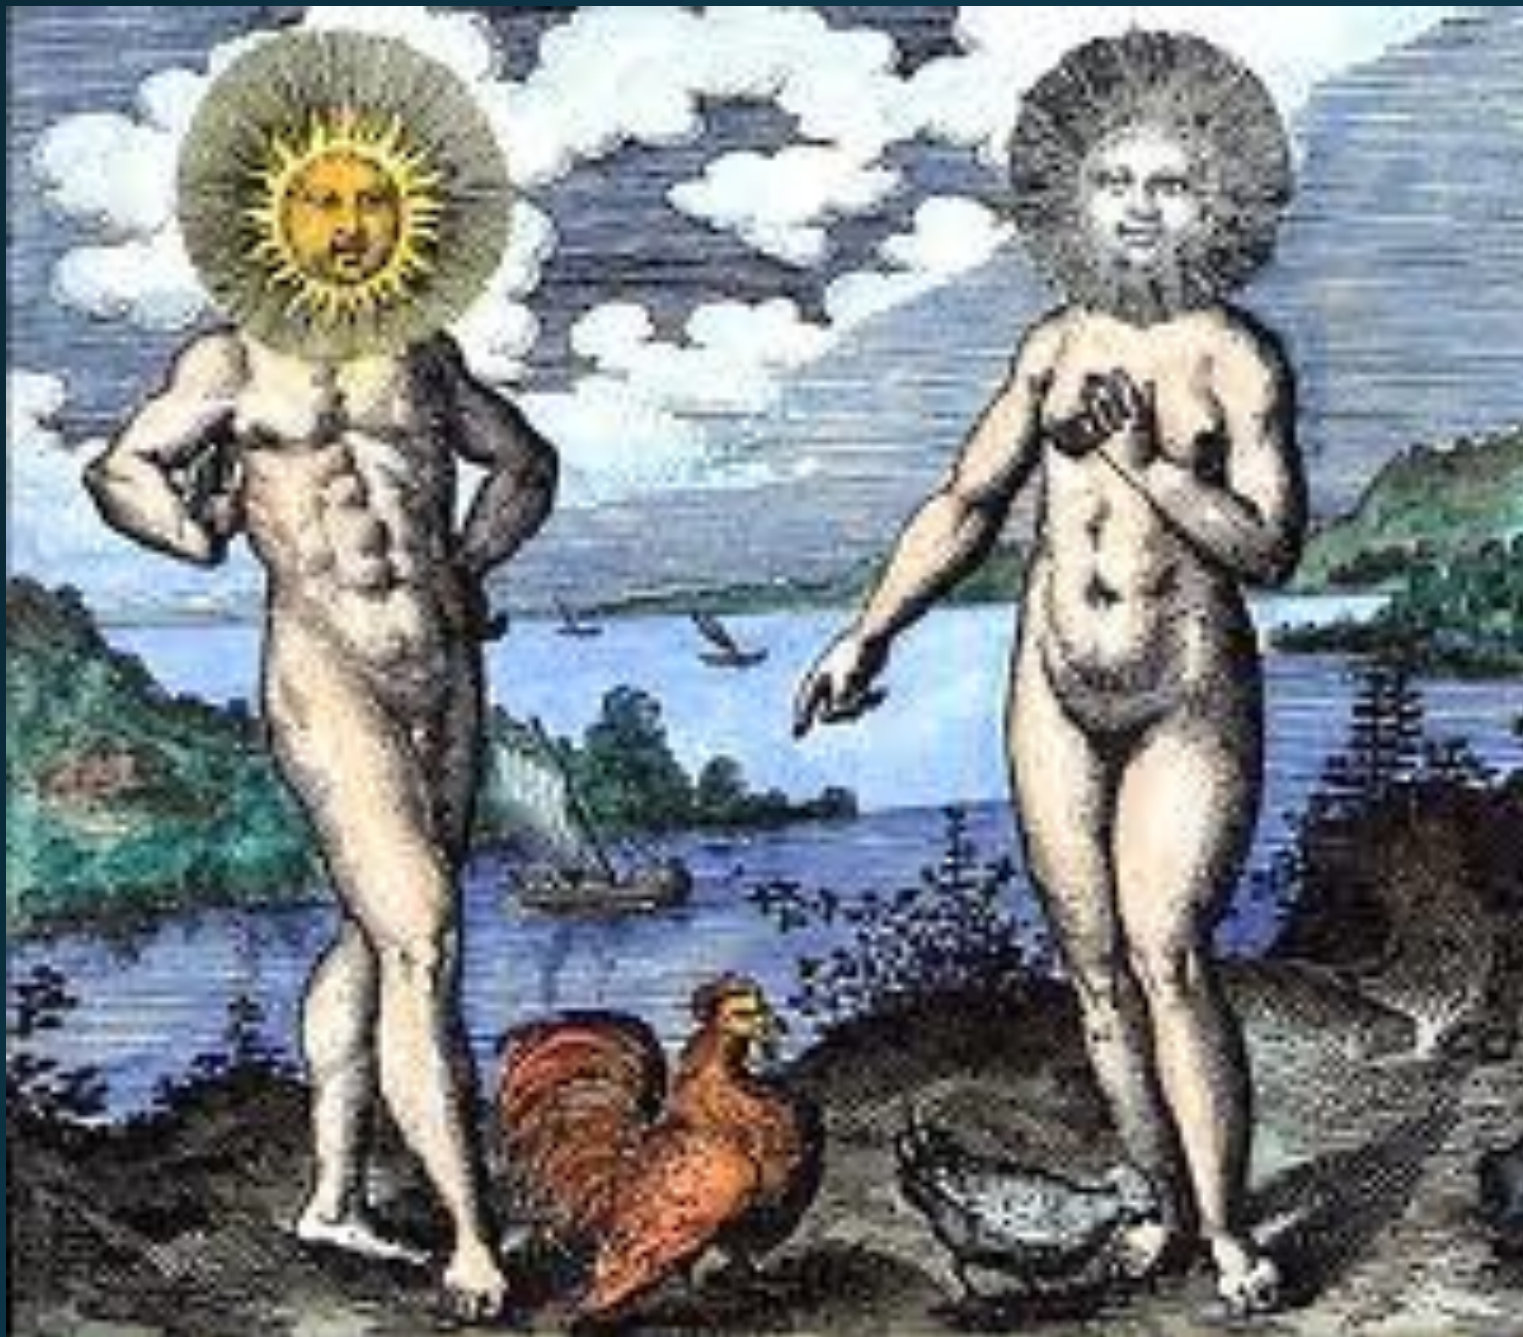

During this breaking down of the personality into its basic components, the alchemist becomes aware of the opposites within and separates them from their contamination with ego complexes and unwanted unconscious elements.

Alchemy of Money

Step 4

Soul + Spirit =
Conjunction

Ego Can Stand
Between The
Union

discovering discernment and wisdom
- *Conjunction:*

Step 5: Fermentation

Associated with the Dark Night of the Soul psychologically.

“Here, we undergo a type of rebirth, resulting from the deep willingness to let go of all elements of [ourselves] that no longer serve our spiritual evolution. This marks the true beginning of inner initiation, of entry into a ‘higher’ life in which our best destiny has a chance to unfold.” Mistlberger

- Every one of these processes requires a sacrifice, generally consisting of old, outdated, and cherished beliefs.
- What old outdated and cherished beliefs about money do you have that it's time to release?

Money Mysteries

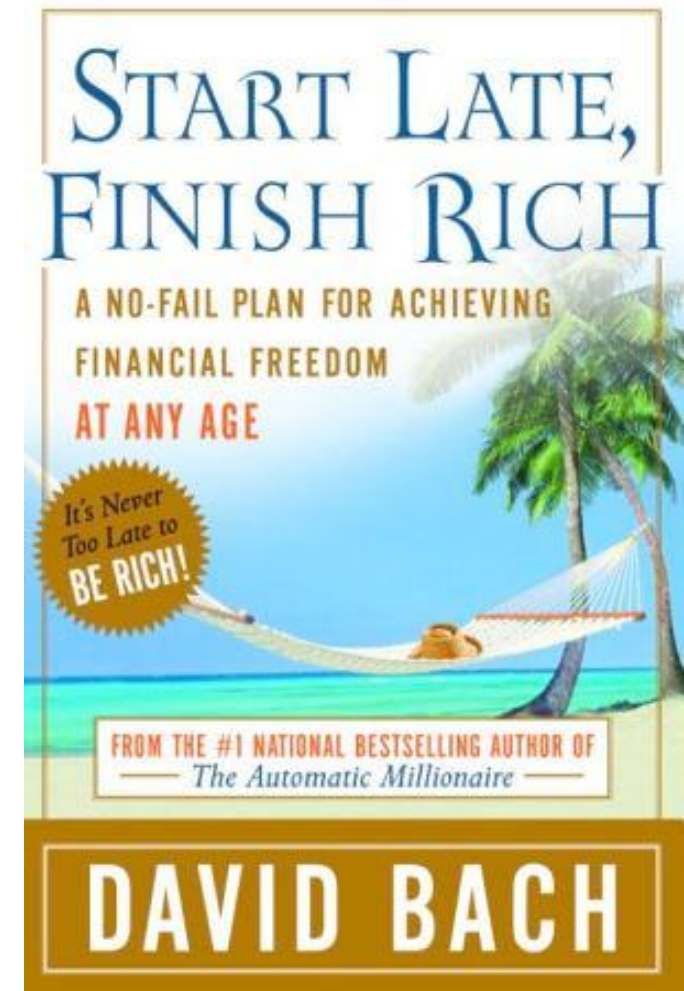

- Deep Financial Truth Results
- Income, Cash Flow, Expenses, Financial Freedom, and Wealth Creation
- Not just how much you make.
- About what you “do” with what you have.

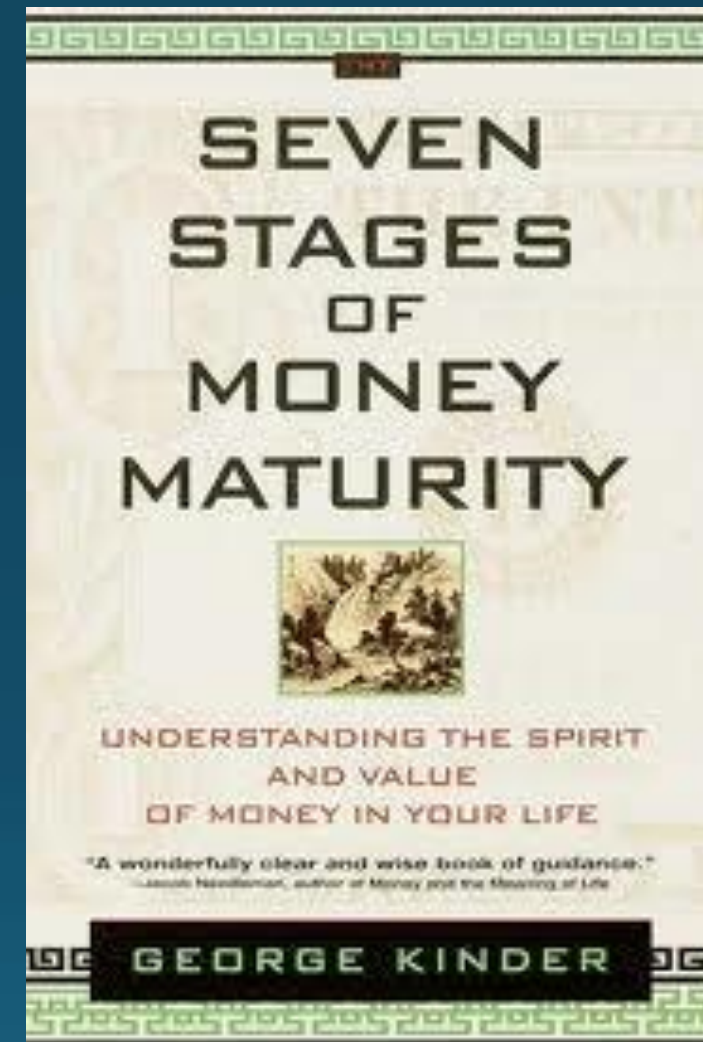

The secret to finishing rich is not earning more; it's spending less. How much you earn has almost no bearing on whether or not you can and will build wealth.

The fact is, most people overestimate what they can do financially in a year—and underestimate what they can achieve financially in just a decade or two.

In it's early days, money was stamped with divine images, for money itself was divine.

As you ponder what we have discussed so far, what still needs transforming in your financial life?
