Intention...

I hope you have had some time to do the homework and think about your intention for this work. I want to give you a moment right now to just sink in and think about that together for a moment. I'm going to play some music. Take a moment to drop inside and just ask, "What is my intention for this program?"

We will want to keep coming back to this and let it be an anchor for our time together.

Sacred Teachings...

The very best use of this course is to create a new way of life,
A new way of thinking...New Habits...A new Context...A wealth conscious
It is not our circumstances or karma or astrology or numerology, any other outside force that
determines what our lives become...IT IS OUR CHARACTER, which we have total control over.

Our focus determines our thoughts.

Our thoughts determine our beliefs.

Our beliefs determine our feelings and emotions.

Our emotions determine our actions.

Our actions determine our habits.

Our habits determine our character.

Our character determines our destiny.

So if we shift your character, we shift your destiny

Core Principles

THE BIG REVERSAL: Whatever is missing is what you are not giving. If you want more to come into your life, you must let more life come out of you. If you want something different in your life you must let something different come out of you, because YOU are the SOURCE of it all. YOU brought it all with you.

THE BIG BETRAYAL: Whenever you make anyone or anything outside of you your Source, the Universe is set up to fail you – to betray you, so that it can bring you back home again, back to your truth, your real Source.

THE LAW OF CIRCULATION: You can only give what you have. You can only keep what you give. And you can only sustain what you receive. It's a circle, a cycle, a single breath.

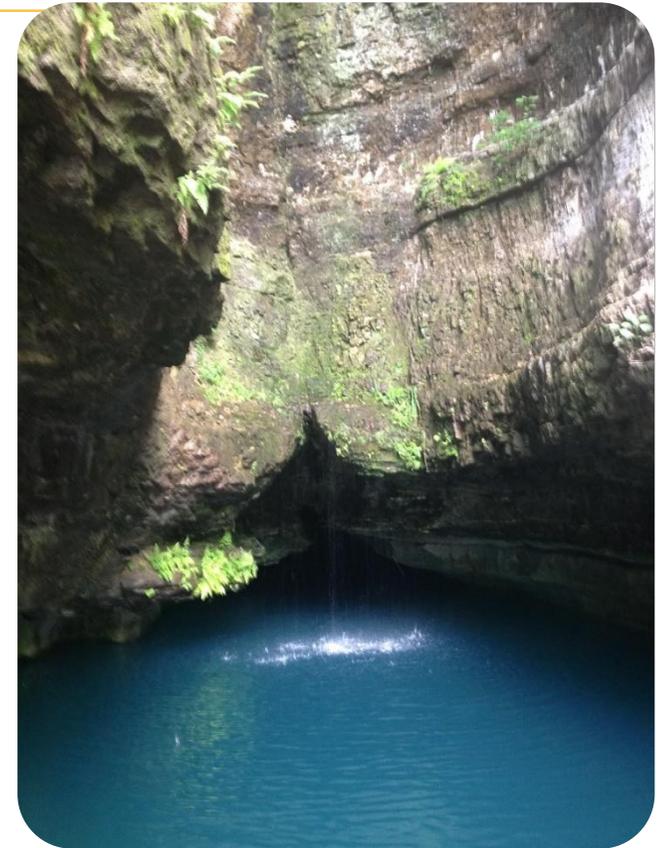

THE SEVEN GIFTS: The framework that allows you to activate it all.

Myth busting...

The Myth that the Great Reversal helps us snap out of is that “we are separate and apart from our good, and we must go out and get it, achieve it, and make it happen.”

But the truth is whatever is missing is what you are not giving. Because it is all within you This false belief that we are apart from our good is what keeps us all in pain and suffering. If we believe we are separate from our good, we will do just about anything to get it, or to keep it, and to make sure no one else gets it from us.

When we awaken to the truth, it doesn't just bring more money into your life, it brings more YOU into your life. It brings more life into YOU!

Myth busting...

Another myth that we have already mentioned:
Money or Wealth is material. **WEALTH is SPIRITUAL.**

Spiritually speaking, there is no difference between love and wealth or supply. They are both spiritual qualities that you can give any time anywhere, no matter what the conditions. You don't need to get anything to be able to generate a spiritual quality. Life is qualitative...its spiritual...its consciousness. When you really understand this, you realize that no matter what the material condition is, you can always generate more of real substance. And it will begin to manifest as everything that you need.

LOVE EXAMPLE

Love is always broadcasting on KLUV!

Where did all that love come from?
And where did it go? When you're not experiencing it where does it go? NOWHERE! It is always here ALL THE TIME. But in order for you to experience it you have to dial it up. When you focus on it, it expands into your life.
THE SAME IS TRUE FOR ANY OTHER QUALITY.
The more you ACTIVATE, RADIATE, and CIRCULATE them, the more you are aligned with that vibrational field. And all the experiences that live in that vibrational field start to migrate and merge into your experience. You will call it attraction or synchronicity. But the truth is that you have just become more congruent with the TRUTH of that experience and who you really are.

You already have all you need...

When you tuned into that radio station, you didn't make the music happen, it was already there. It wasn't off in the distance in your future. It was already playing here. You just tuned into it.

THIS IS THE TRUTH WITH EVERYTHING IN YOUR LIFE. THE GODDESS CREATED IT THAT WAY. SHE MADE YOU WITH EVERYTHING YOU NEED RIGHT INSIDE OF YOU. YOU DON'T HAVE TO GO ANYWHERE TO GET IT. IT IS RIGHT INSIDE OF YOU!

So the Sacred Money Mysteries are about waking up to that truth. Tuning into it. Creating a practice, a process and a structure to maintain it, to sustain it, and to continue to expand it as a way of life.

The seven gifts are all about the ways to activate these qualities.

Getting into alignment...

The more of any quality you activate, the more that you have. Because the physical world is just the coagulated energy of these thoughts, when you activate more love, life gives you more love or things to love you. When you activate more wealth, the universe gives you more to give, to receive and to have. That's why “whatever is missing is what you are not giving...you are not activating, not generating.

This is all about developing and expanding your **HAVE** consciousness – that inner feeling that you have and **have abundantly**. And then allowing your affirmations, thoughts, words, prayers and actions to come from this place of having and wholeness... Rather than

Thinking, talking, praying and doing to GET something, which is coming from a place of lack or not having, which puts you out of alignment with the truth of your being, the truth of life which is already whole. When you are out of alignment, you must then experience lack and limitation, pain and struggle...not because its true, not because there is anything in the Universe to support it but because that is what you are “mis”-aligned with.

So the key is to not allow any consciousness of loss or lack to be entertained.

You have infinite good of every nature...

Anytime the world tries to demonstrate otherwise to you, we must immediately go to work to remind ourselves of the truth. That we are limitless.

So we have to stop, and use our tools until we feel it again. Until we feel that we are on the upward, having spiral. You don't want to let your feeling around anything continue on the downward spiral of have not...because soon you will see that in your world.

This is not about resisting or fighting the appearance. When you believe in the lack, that is when you start fighting and resisting it, but when you stop, breathe, and go back to the Truth, and reconnect to SOURCE, you come home to the realization of your wholeness, your **haveness**. ACTIONS FROM THIS PLACE BECOME RIGHT ACTIONS.

Giving is the new getting...

It literally primes the pump. If you know that you are the source of everything, then in order to create flow, what do you do?

YOU GIVE!!!

When you truly get this, you remember that truly, the WORLD has nothing for you. You contain it all. The word, human, in Sanskrit comes from a word that means, “dispenser of divine gifts.” You came here to deliver something.

YOU REALLY ARE THE GODDESS’S GIFT TO THE WORLD!

Our focus on the world of appearance and the belief that we and live are merely physical and material is what gets us off track and puts us to sleep.

Something to Ponder...

So remember when we talked last week about what the people were afraid was going to be stolen from the temple – the connection to the Goddess...

I want to suggest to you that, indeed, *that* was stolen from us. These truths have been all but wiped from our psyche, and have been exchanged for a cheapened version of what wealth, sustenance, and Source truly are, and where they are found. When, we don't own these truths in the core of our being, then this world, truly is a scary place.

The truth that we have all but lost is ONENESS! We are ONE with all of life. The SOURCE of all Life is WITHIN you!

THIS TRUTH IS RESOUNDING THROUGHOUT ALL OF TIME.

Example of Niagara Falls...

Niagara Falls is this beautiful opening for Lake Erie to display its power. It is one of the seven wonders of the world. But it is just an opening, for Lake Erie to pour through. In and of itself, it has no power. The power comes from the Lake.

In the same way, you are the opening for Source to pour out its gifts to the world. In the same way, we are the opening for Source to pour through. In and of ourselves, we don't have enough to do any of what we want to do, and when we try to do it through our own power – the ego- we always come up short. But when we return to the truth, and open to allow Source to pour through us, look out!

You are not merely a human...

You are a place where infinity is seeking to pour forth it's individual being...

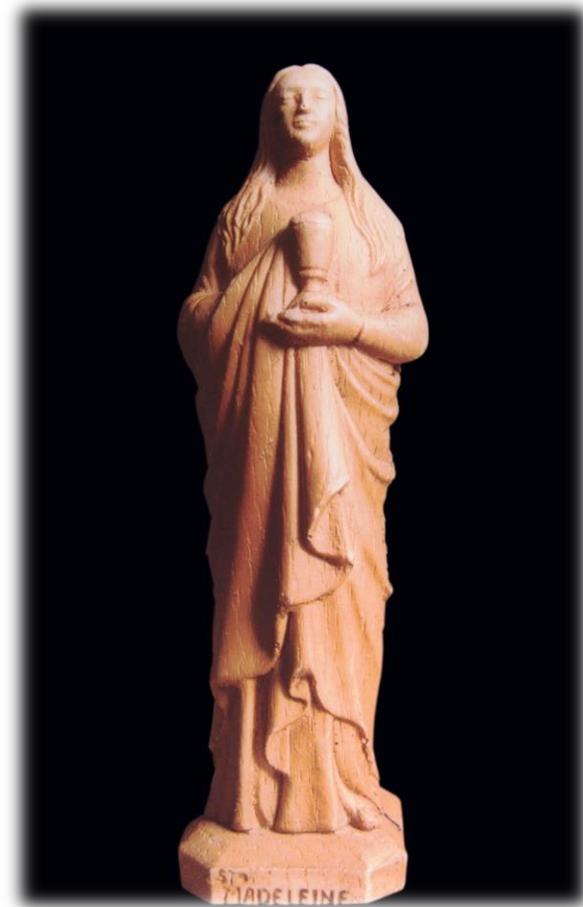

You are the way that the Goddess shows up.

You are another outlet for Source, the face of Love, to display its magnificence.

You truly are the light of the world.

So your capacity is not based on your genetics, your DNA, your family history or your experience. Your capacity is Goddess capacity, ***SOURCE capacity.*** Your wealth or health or love is SOURCE'S measure of these qualities.

So how much power, source, supply, or genius is your potential?
What is the ***Goddess's potential?***

You are the way the Goddess shows up in the world!

This means there is an endless supply of everything that is real, always available, pouring forth right where you are. Which means you can renew and restore everything and anything, without limit, forever.

This is the truth... It's pretty radical! But it's the truth...

Are we hitting a threshold yet?

“Take abundance from abundance, and abundance remains.”
--Bhagavad Gita

It is always happening right where you are!

But you can only access it if you are

- Interested in it;
- Seeking to connect with it;
- Identifying as it;
- Finding the ways to express and circulate it.

Rather than...

- Judging by appearances, and then
- Determining who you are, what is possible, and what you will do.

This is what cuts you off. So we must begin to quit **JUDGING BY APPEARANCES**, and bring ourselves back to the truth of our Oneness with the Goddess.

Judging not by appearances...

Every time we look at an appearance and we judge what our capacity or capability is based on that...when you look at your bank account, your job situation, your DNA, your upbringing, and you determine who you are and what you are capable of, based on that...

You have just collapsed all of your power, your infinite good, your connection to Source, and all that is good and perfect about you, into that finite little concept.

Then you wonder why you can't overcome it, why, no matter what you try, nothing seems to work, why you keep struggling.

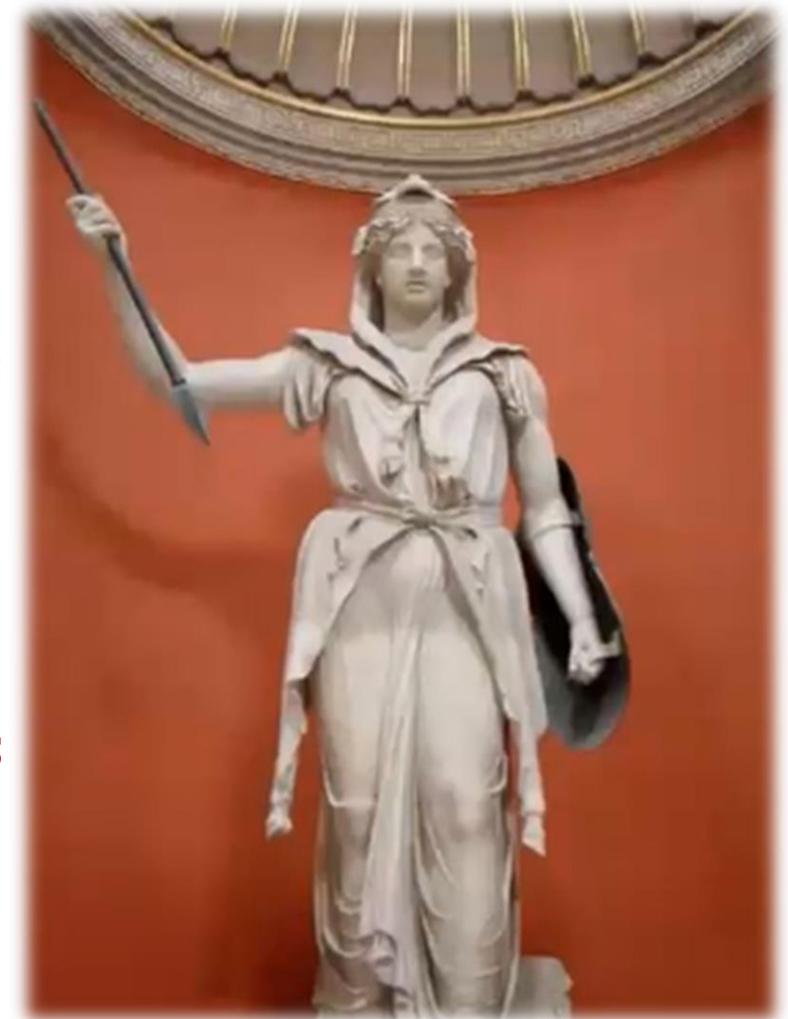

“You can't solve a problem at the level of the problem.” –Einstein

PROBLEMS DISSOLVE AS YOU EVOLVE!

A problem is just a symbol of a state of consciousness. You must first move yourself out of that state, for the problem to dissolve. Not the other way around. So if you are trying to “fight with the problem” you remain married to – a match – for that frequency. What we resist, persists... And you will always have more of it. Even if you manage to willfully manifest a bigger income, you will find yourself broke at a bigger income bracket.

When you find yourself sucked in to old patterns of looking at appearances...

- **Stop**
- **Breathe**
- **Go within and remember your Oneness with the Goddess**
- **Open a way for it to pour through you**
- **Re-establish your “have” consciousness**
- **From this space, move into action**

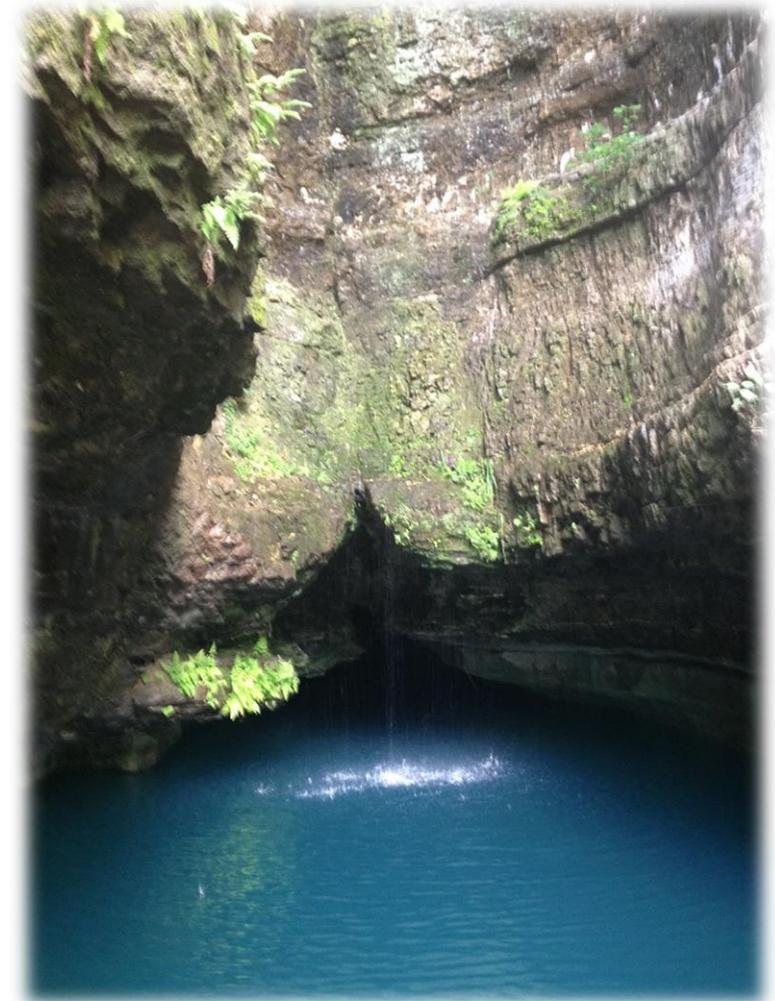

The root of all suffering on this planet...

Can be traced back to this core belief:

I am separate, all by myself, separate from my Source and from everyone else, and therefore I have to be broke or broken or beg, borrow, or steal, or even go to war and kill, in order to get my share of the limited pie.

BUT THERE IS NO PIE!

There is an infinite flow that you are an outlet for, and the Sacred Money Mysteries awaken you to the **TRUTH that YOU ARE THAT FLOW** and you are the opening through which it flows infinitely and inexhaustibly into your world and beyond.

The Big Betrayal...

When you make anything or anyone outside of you, your Source of safety, security, supply, or support, the Universe is set up to betray you...because whatever it is, is NOT your Source!

When you think something outside of you is, you begin a process of controlling, cajoling, manipulating, shutting down parts of you, distorting and cavorting yourself, to try to be what you think you need to be, to get what you think you don't have, to hold on to what you think you might lose, and little bit by little bit, you lose yourself...you disconnect from your Source, from your Power...sound familiar?

So eventually you are just a fictional version of yourself, you are a caricature of yourself, doing all manner of crazy things to get what you think you want and need and hold on to what you are afraid of losing, and you don't even recognize yourself anymore and you wonder why it's not working.

In this state, your destiny, your true gifts, your authentic voice and message cannot come through! And the ONLY reason you are here to wake up to who you really are and deliver your true gifts to the world!

Live from Insight, not Eyesight!

Live from Source and allow everything to flow from there. You, in your finite knowledge, have no idea where Source is going to give to you from...or even who it wants to give to through you. Our ideas of how our good is going to come to us, is very limited.

But the Universe has INFINITE organizing power.

So plan your life as if you are doing all the work, but live your life as if the Goddess is...

This way you remain open to all the infinite organizing power that is available to you.

A Radical Shift....

If you always come from the SOURCE,
(the Goddess Within), then no matter
what happens outside of you, no
matter what anyone says or doesn't
say, does or doesn't do, whatever you
appear to have or not have...

**YOU WILL ALWAYS BE ENOUGH, AND
HAVE ENOUGH!**
