# Highlights of the Grandmother Teachings:

Coming of Age is a mystical, magical time, when you learn how to link up your body to the Earth in a formal way.

The blood at that time is one of the most powerful potent elixirs on Earth...pure liquid gold, a magical gift from the Goddess.

It holds the codes for all of your dreams, hopes, wishes, your life plan and potential, all the choices you could make, your creative and intuitive potential...and not only yours, but that of your ancestors and your offspring, and your future lives. It is a virtual cornucopia of information.

It is programmable and mutable. It can be reformed and reshaped. But most important, it is your LINK UP to the Earth Mother...your magic key to unlocking all of the potential that lives within you...turning it on...and at this point in your young life, it is PURE!

- As your body begins to awaken, it sends out a call—a beacon, if you will, to the Universe. All hear this call and certain planets, specifically Venus, and other influences found in your birth chart, align to send you a giant...HUGE...thrust of Creative Shakti Potential.
- This Ceremony ignites that potential and links it to the Earth, thus plugging the computer in and turning it on. It grounds your potential into the Earth and the Elemental Energies and activates them in your life. They will then begin to act on your behalf.
- Sadly, many have never had this experience, and thus their creative potential has not been fully awakened, and not fully grounded into the Earth. This grounding insures that the energies won't be misused or become dangerous to the holder.

# Our Intentions

---

- To establish a tangible, physical link between the Earth and the Elements, and our Crystalline Womb.
- To dedicate our Crystalline Womb to activating and maintaining that connection.
