**and a sense of the  
Alchemical  
Transformation Process**

**Nature is an inexhaustible storehouse of riches. The supply will never run out. Original substance is alive with creative energy and is constantly producing more forms.**

**The formless stuff is intelligent; it is material which thinks.  
It is alive and is always impelled toward more life.**

**The universe is a great living presence, always moving inherently toward more life and fuller functioning. ~Wallace Wattles**

# Stages of Alchemy

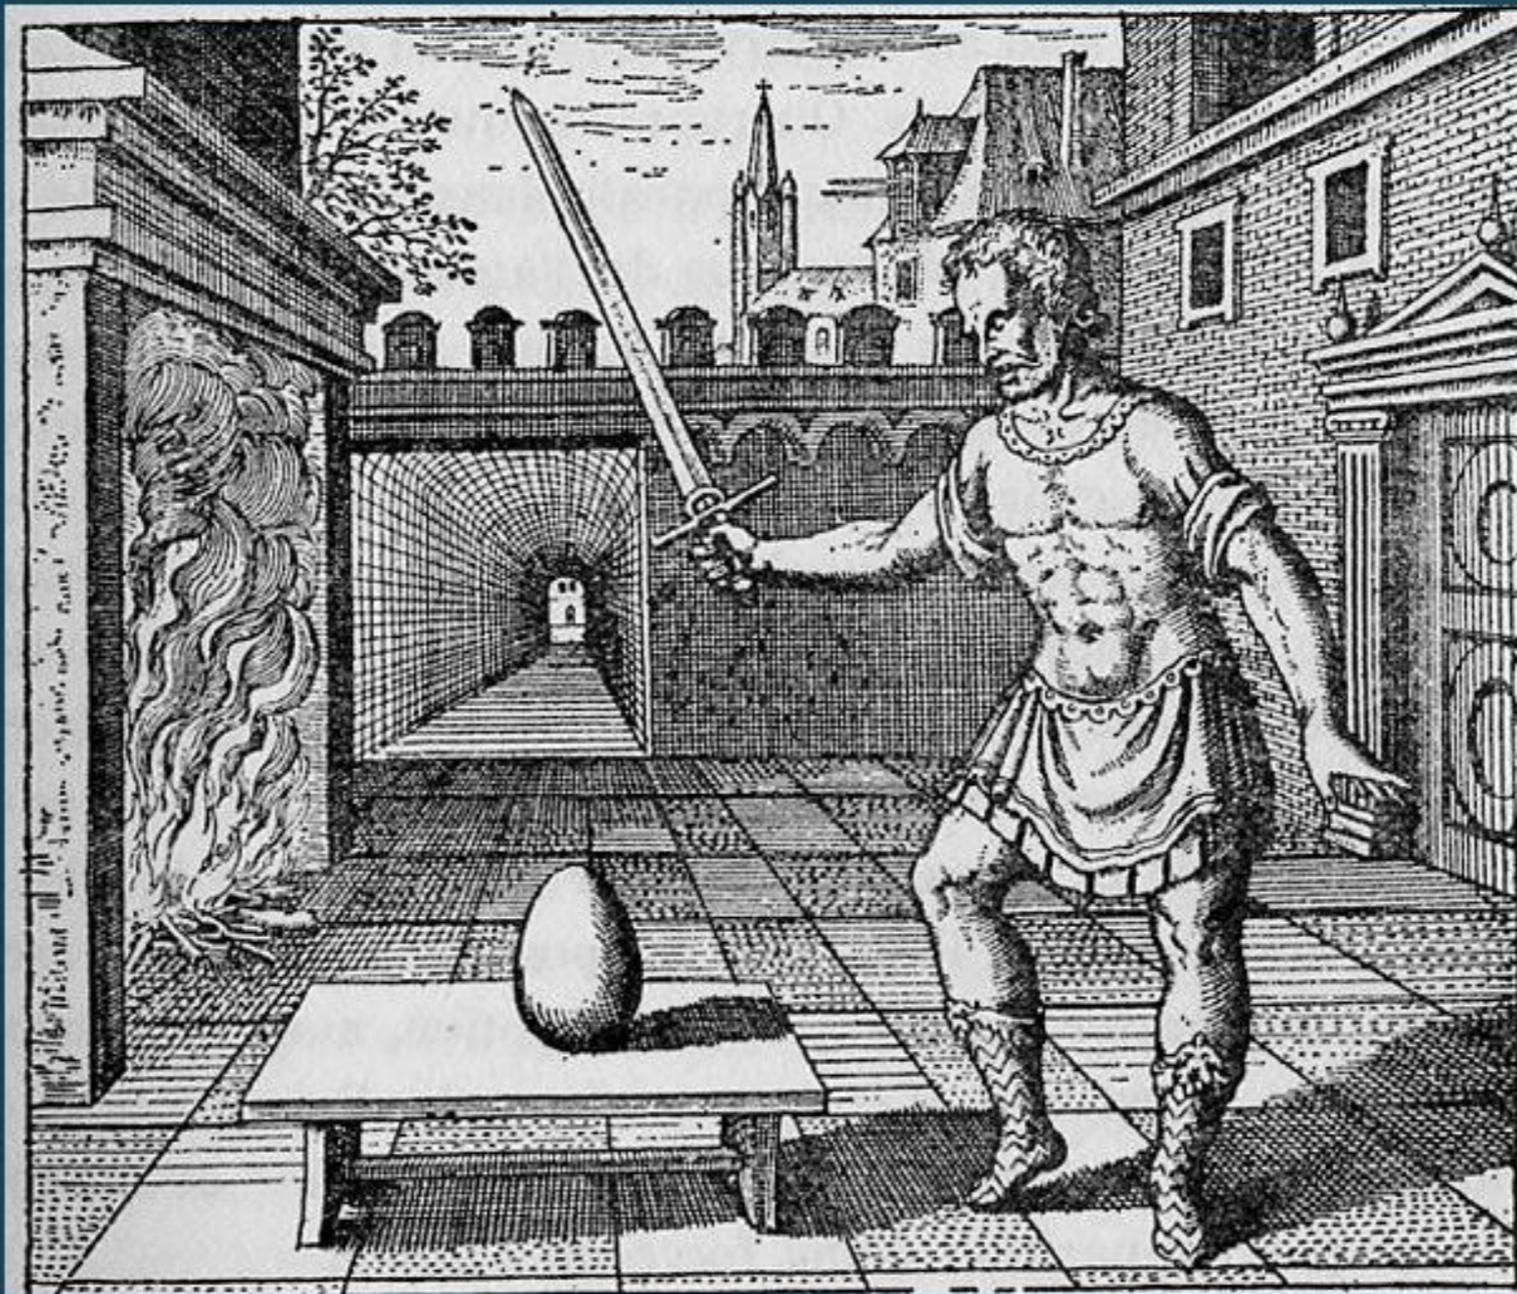

# Step 1: Calcination

A burning off of pretenses and unworkable belief systems that hinder our progress.

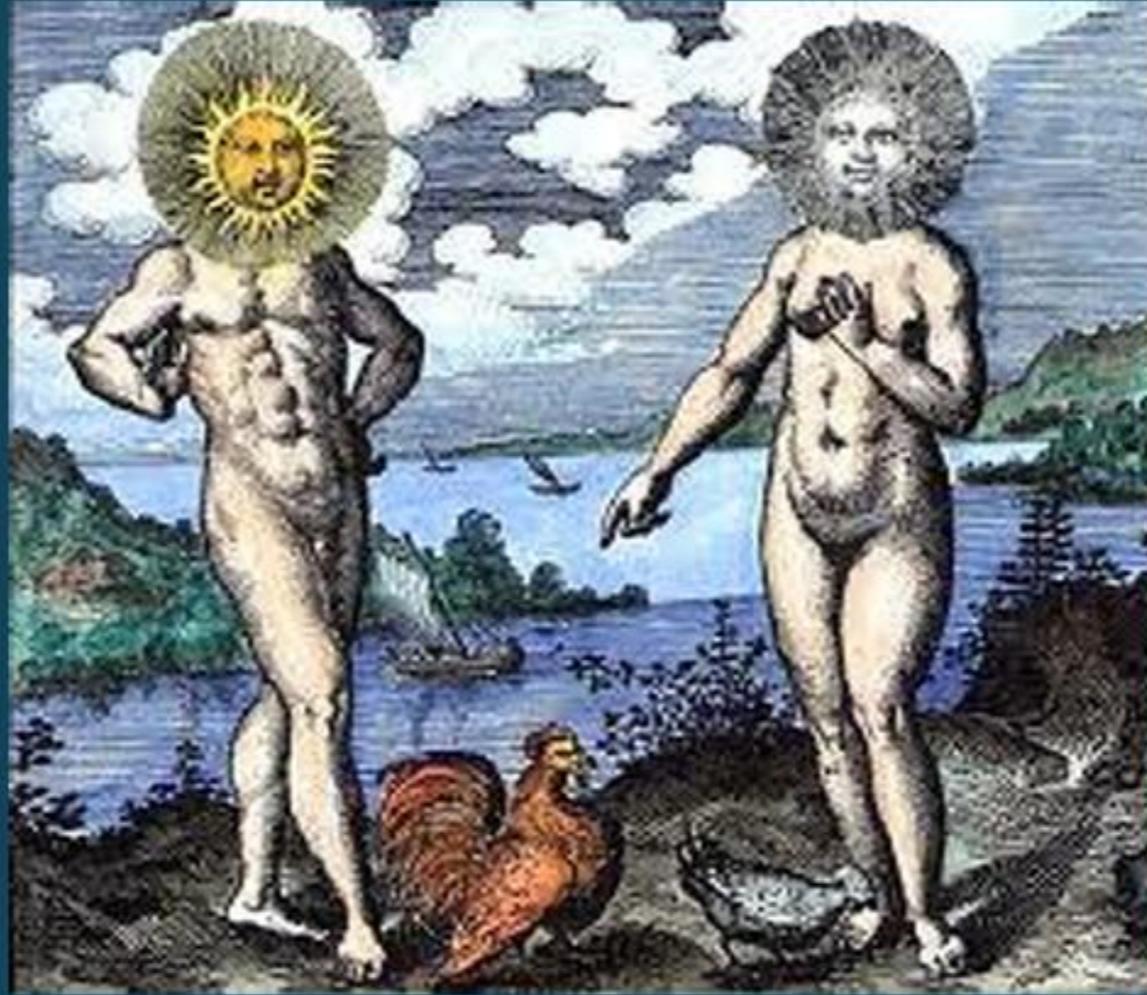

## Step 2: Dissolution

Works on the heart and ego to release buried emotions that conceal or distort our true nature.

## Step 3: Separation

During this breaking down of the personality into its basic components, the alchemist becomes aware of the opposites within and separates them from their contamination with ego complexes and unwanted unconscious elements.

**Step 4**

**Soul + Spirit = Conjunction**

**Ego Can Stand Between The Union**

## Step 5: Fermentation

Associated with the Dark Night of the Soul psychologically.

“Here, we undergo a type of rebirth, resulting from the deep willingness to let go of all elements of [ourselves] that no longer serve our spiritual evolution. This marks the true beginning of inner initiation, of entry into a ‘higher’ life in which our best destiny has a chance to unfold.” Mistlberger

# Step 6: Distillation

When you become distilled, you are grounded in both the earthly and spiritual worlds simultaneously. You have matured, no longer expecting life to meet egoistic expectations, and have released belief in negative self-regard.

**Step 7**  
**Coagulation**  
**Fully Claiming**  
**Your Divinity**

# Clearing A Piece

**Notice what is arising in your consciousness.**

**Pay attention to your inner awareness.**

**Look for the Archetypal Pattern**

As you will remember, doing this work puts us in direct contact with *the Soul of the World...the Divine Sophia.*

*Her Story is not so different from ours* – Because she was was a big Creator Spirit, an Aeon, a spiritual force, emanating directly from Source, that live in the Pleroma, deep in the black hole, the heart of our Galaxy, she had not experienced duality

When she left the safety of the Pleroma and expanded herself out into the galaxy to solidify herself into this planet, she came in direct contact with dark opposing forces. Many of the stories in the Pistis Sophia are stories of her being attacked by these forces. Some believe that Yeshua's visit to this planet was to free her. So this work that we do is Ancient in its scope.

Connecting with Her in this way actually activates codes in our DNA that have become dormant from lack of use. By coming into contact with Her on a regular basis we establish communication with Her and these pathways are re-activated. It heals us and it heals Her.
