Alchemy of Money

- *Calcination*: incinerating the ego's control
- *Dissolution*: redeeming emotion and intuition
- *Separation*: discovering discernment and wisdom
- *Conjunction*: opening the heart through balancing the inner masculine and feminine
- *Fermentation*: integrating lower levels of consciousness with the higher through fire and ferment
- *Distillation*: distilling all the work already done and developed to a pure essence
- *Coagulation*: surrendering into a new consciousness of wholeness

- Every one of these processes requires a sacrifice, generally consisting of old, outdated, and cherished beliefs.

Calcified or Hardened Money Interactions

"Diana, there are two kinds of hubris. The kind that makes humans obsessed with being bigger, better, more important than others. We see a classic illustration of such hubris in our friend Roy."

Diana winces.

"You, piglet—most humans, actually—suffer from the other kind of hubris. The kind that makes you see yourself as smaller and less important than you really are. The kind that won't allow you to identify as part of the divine. That, Diana, is the last piece of ego you have left to sacrifice."

Earth & Your Money

Take time in nature to feel, touch, and connect to the element of Earth. Allow your awareness to sink deeply into the soil beneath you and deeper down into the Earth. Ask Earth to share her essence teachings on money with you. Then just wait and listen. When you receive a message, write down the message without filtering it. Remember to thank Earth for the abundant blessings you have received and are receiving in life.

Notes on Your Money Reflection with Earth:

What structures or support do you need to assist you in managing your money? Do you have a trusted advisor, need to brush up with some classes, or do you feel capable of handling it on your own?
