*“We have dreamed it: therefore it is. I have become convinced that everything we think and feel is merely perception: that our lives—individually as well as communally—are molded around such perception: and that if we want to change, we must alter our perception. When we give our energy to a different dream, the world is transformed. To create a new world, we must first create a new dream.”*

*“To think what you want to think is to think TRUTH regardless of appearances. There is no labor from which most people shrink as they do from that of sustained and consecutive thought; it is the hardest work in the world. This is especially true when truth is contrary to appearances. Every appearance in the visible world tends to produce corresponding form in the mind that observes it. This can only be prevented by holding the thought of the TRUTH.*

*It requires power to think health when surrounded by the appearances of disease, or to think riches when in the midst of the appearances of poverty. But, she\* who acquires this power becomes a master mind. She\* can conquer fate; she\* can have what she\* wants. \*My gender change*

## Stop the old losing battle of comparing and start creating your financial future with the Elemental Forces.

Comparing yourself to others only diminishes the value of your unique essence and contribution.

Comparing weakens your faith in your capacity to create. No other person has the same job in creation that you do...no one.

You must focus on what you are being called to create and set up a good system for economic flow from that creation.

### Focus on Creation

Apply the natural power of the elemental forces to create a Money Goddess revenue generating system.

You can start from scratch or use a proven “done for you” business model. Get the support you need no matter what you choose.

### INSIGHTS...

*“It is not necessary to try to get rid of fear in order to succeed. Because we are creatures of habit, we need to practice acting in spite of fear, in spite of doubt, in spite of worry, in spite of uncertainty, in spite of inconvenience, in spite of discomfort, and even to practice acting when we are not in the mood to act. You have to be willing to do what it takes. You have to ‘train’ yourself to not be stopped by anything.”*
