# Sacred Origins of Money

“Because human beings had always known the interconnectedness of all things material and spiritual, the discovery of metals only deepened that understanding. The sun and the moon were not representatives of gods, but gods themselves. The lunar goddess and sun god lived within the moon and the sun, not as separate entities, but as integrated spirits. Gold and silver metals were understood to be extensions of the spirits of the celestial divinities.”

~ Barbara Wilder, *Money is Love*
